Mark your calendars!

Raspberries, Blueberries, Blackberries, Muscadines and Figs are in 1-gallon containers and are well adapted to the piedmont growing conditions. Cost for plants is \$9 each. \$8 each if five or more of one variety are ordered.

VARIETIES AVAILABLE

RASPBERRIES: Self-Fertile

NOVA - Early ripening; medium to large berries; good disease resistance; heat tolerate; good flavor and production.

BLUEBERRIES: At least two varieties must be planted to ensure cross-pollination.

BRIGHTWELL - Ripens mid-season and over a long period; large fruit, excellent quality; very productive; growth is vigorous and upright.

CLIMAX - Ripens early over a short period; medium size berries with a sweet flavor. Growth is upright and open spreading crown.

POWDERBLUE - Ripens mid-season; medium size berries; good flavor; growth is upright and spreading; excellent for ornamental settings.

BLACKBERRIES: Self-Fertile

APACHE - Thornless variety; erect-growing with large fruit and good flavor. Ripens over a five week period.

ARAPAHO - Thornless variety; erect-growing with medium fruit and good flavor. Ripens over a four week period.

MUSCADINES: Self-Fertile

WELDER - Bronze; medium fruit size, good flavor, very sweet, high yields and ripens mid to late season. Plants are vigorous and disease resistant.

BOUNTIFUL - Black; small fruit size; high sugar content and ripens late season. Plant has very good disease resistance.

FIG TREES: Self-Fertile

CELESTE - Fruit are small to medium in size, light brown to violet-brown skin, whitish pink color flesh and very few seeds. Ripens early summer.
