STRAWBERRIES

Plants are suitable for growing in the piedmont area and will be sold in bundles of:

25 for \$10

50 for \$15

100 for \$20

Raspberries, Blueberries, Blackberries, Muscadines and Figs are in 1-gallon containers and are well adapted to the piedmont growing conditions. Cost for plants is \$9 each. \$8 each if five or more of one variety are ordered.

VARIETIES AVAILABLE

Strawberries: Supplies are limited

ALLSTAR - Ripens mid-season, vigorous, disease-resistant and sweet large fruit.

RASPBERRIES: Self-Fertile

NOVA - Early ripening; medium to large berries; good disease resistance; heat tolerant; good flavor and production.

BLUEBERRIES: At least two varieties must be planted to ensure cross-pollination.

BRIGHTWELL - Ripens mid-season and over a long period; large fruit, excellent quality; very productive; growth is vigorous and upright.

CLIMAX - Ripens early over a short period; medium size berries with a sweet flavor. Growth is upright and with an open spreading crown.

PREMIER - Early to mid-season, large fruit. Excellent flavor, light blue in color and good quality. Plants are upright with good foliage. Highly productive.

BLACKBERRIES: Self-Fertile

APACHE - Thornless variety; erect-growing with large fruit and good flavor. Ripens over a five week period.

ARAPAHO - Thornless variety; erect-growing with medium fruit and good flavor. Ripens over a four week period.

MUSCADINES: Self-Fertile

COWART - Large black fruit, large clusters, good flavor and quality. Good for eating, making juice, jelly and wine. Disease resistant, vigorous and productive. Ripens early-mid season.

TRIUMPH - Fruit are large, thin skinned and greenish-bronze, with a high sugar content. Good for eating and making wine. Winter hardy and productive. Ripens early-mid season.

FIG TREES: Self-Fertile

BROWN TURKEY - Bears twice a year, with the flesh turning from various shades of amber to pink. The skin is copper-brown. Very hardy. Ripens early and late summer.

CELESTE - Skin is light brown to violet-brown, whitish pink color flesh and very few seeds. Ripens early summer.
